

OCUA'S GENDER VISION

OUR VISION

OCUA's vision is to create an environment where all our members, regardless of their gender, can enjoy themselves. We want to make playing Ultimate fun by offering leagues where all players feel safe, respected, included, and empowered.

We believe that in order to feel like equal players on the field, women need to be equally represented across our membership. As such, it is our goal to achieve 50% women members across adult membership.
